Balaji Institute of Technology and Science (July 12, 2018 - September 15, 2021)  
B.tech

Vemuganti Manohar Rao Polytechnic College (April 08, 2015 - March 07, 2018)  
Diploma

St. John's High School (June 09, 2005 - April 08, 2015)  
SSC

## PROJECTS

### E-Commerce Website

Web Application

- Developed an E-commerce website with user-specific.
- Context API is used to manage the app-wide state.
- React Router is used for page navigation, GitHub for version control, firebase for user authentication and deployment.

<https://github.com/karthik-140/e-commerce-website>

React.js    Context API    React Router    Git    Firebase    HTML    CSS

crudcrud

### Expense Tracker

Web Application

- Developed an Expense Tracker application where users can add, update and delete the expense.
- Introduced premium features where users can turn on dark mode and download the expense file.
- Redux is used to manage the state app-wide.

<https://github.com/karthik-140/Expense-Tracker>

React.js    Redux    React Router    Firebase    Git    HTML    CSS

### Mail-Box-Client

Web Application

- Developed a mailbox client application in which users can send and receive mail from other users.
- Used firebase as a backend to store, retrieve mail and also user specific.
