## SKILLS

### Programming Languages

- Javascript
- Typescript
- HTML5
- CSS3
- MYSQL

### Front-End Technologies

- React JS
- Redux Toolkit
- RTK Query
- Material UI
- Tailwind CSS
- Next JS

### Back-End Technologies

- Node JS
- Express JS
- Sequelize
- REST APIs
- JWT

### Tools & Platforms

- Git
- Postman
- AWS
- Jenkins
- Firebase

## LANGUAGES

- English  
Fluent
- Hindi  
Fluent
- Telugu  
Native

## CERTIFICATIONS

OOPs in java  
Great Learning

Java Programming  
Great Learning

## ABOUT ME

Frontend Developer with 3 years and 8 months of experience in building responsive and user-friendly web applications. Eager to contribute skills and grow with a dynamic organization.

## NOTICE PERIOD

Immediate

## WORK EXPERIENCE

### KeyPoint Technologies

(August 12, 2024 - Present)

Software Developer

### Acheivements/Tasks

- Built and maintained responsive web applications with focus on performance and scalability.
- Collaborated as a Frontend Developer and supported backend teams in issue resolution.
- Upgraded React versions and dependencies for improved stability and compatibility.
- Implemented Higher-Order Components (HOCs) to reduce redundancy and simplify codebase.
- Optimized rendering and load times to enhance user experience.

### Coradius

(July 28, 2023 - August 02, 2024)

Developer

### Acheivements/Tasks

- Developed and maintained two React.js projects, implementing reusable and efficient UI components.
- Utilized libraries such as React Router, Redux, RTK Query, and React Hook Form for state management and API integration.
- Applied Redux for centralized state management, reducing prop drilling and improving maintainability.
- Contributed to ONDC network integration, enabling seamless buyer-seller connectivity.
- Collaborated with backend developers on troubleshooting and feature implementation.

### InDesign

(November 08, 2021 - December 30, 2022)

Frontend Developer

### Acheivements/Tasks

- Developed web pages based on business client requirements.
- Worked on a full-time React.js project in a 4-member team, ensuring clean and maintainable code.
- Implemented navigation using React Router.
- Built modular, reusable components following best coding practices.
- Participated in regular sprint meetings and provided daily progress updates to stakeholders.
